I'll do that. Currently, we are having some real problems with email and other systems. As soon as I can, I will send the information for that access.

Subject: Bayou Corne Images

I am writing to ask for access to the FTP site for the aerial chemical/radiological survey done over the Bayou Corne sinkhole area. I am working on a presentation for a remote sensing class, and I would like to show some of the images to the class.

Thanks,
Larry
